ABOUT

Howard B. Ray is President of HRC. Since joining the company in 2000, Howard's focus has been on creating lasting client relationships by providing the highest caliber of customer service. As President, he spearheads the HRC business development process and client retention strategy. He also personally oversees quality control and quality assurance for all of HRC's projects. His areas of expertise include value engineering, storm water, and water quality.

Outside of the office, Howard is extremely involved in the local community, serving as a member of the Board of Directors for Tanner Health, Douglas County Chamber, and Carroll County. He is also a STEM volunteer at a local high school.

EDUCATION

BACHELOR OF CIVIL ENGINEERING

Georgia Institute of Technology
