**H23221 Hiram Veteran's Memorial  
Addendum #2  
May 23, 2024**

**Questions & Answers**

1. Is that concrete where the flag poles and slates are located between the concrete ribbon and stamped concrete?

The area where the flag poles and slant monuments are located (colored in red in the image below) will be concrete that is not stamped. See the "Memorial Concrete Detail" on sheet SP1 for concrete specifications.
