**Position: Entry Level Civil Engineer Graduate / Internship**

**Experience Required:** 0 – 5 years' experience

Hughes-Ray Company, Inc., Civil Engineers, Land Surveyors and Landscape Architects, located in the Atlanta and Charleston areas, has an opening for a graduate with a Bachelor's Degree in Civil Engineering and an undergraduate internship position available. Our firm's engineering, surveying, and landscape architecture sections combine staff experience and credentials in a broad range of planning and design services.

**Preferred Knowledge:** Candidate should possess experience in or a desire to be involved in performing assignments designed to develop professional engineering work knowledge and abilities. Work requires application of standard techniques, procedures, and criteria in carrying out a sequence of related engineering tasks. The candidate will participate as a member of a design or project team, perform engineering duties in planning and designing of structures and facilities, such as commercial site development, single-family and multi-family communities, land disturbance activity permitting, sporting club and resort communities, construction documentation, erosion and sediment control and storm water management issues.

**Skills:** AutoCAD required, Hydraflow, StormCAD

**Salary and Benefits:** We offer creative salary and benefit incentives including health insurance and a 401K plan.

**Education Requirements:** Bachelor's Degree in Civil Engineering or Undergraduate Student in Civil Engineering or related discipline.
